

Printech Global Secure Payment Solutions with 30 years of experience in secure payment processing now added Account Receivable solution to its portfolio which allows a streamline process to manage your incoming receivable payments.

Printech **SafeBox Plus** Secure Payment solution integrates into your operations and allows to minimize time and cost of processing incoming payments utilizing web- and image-enabled technologies. The SafeBox Plus system breaks the payment capture process down into **5 STEPS**:

| LOAD  | CAPTURE  | VALIDATE  | POST   | RESEARCH   |
|---|--|---|--|--|
| <ul style="list-style-type: none"> <li>■ Merchant uploads file with all account and invoice information;</li> <li>■ System uses file to match payments with Merchant's customers;</li> <li>■ System capture returns.</li> </ul> | <p>Scan payments:</p> <ul style="list-style-type: none"> <li>■ Checks</li> <li>■ Coupons</li> <li>■ Invoices</li> <li>■ EOBs</li> <li>■ Envelopes</li> </ul> | <p>Validation of payments based on set rules:</p> <ul style="list-style-type: none"> <li>■ Payment History;</li> <li>■ Phonetic matching;</li> <li>■ Splitting payments;</li> </ul> | <ul style="list-style-type: none"> <li>■ Post AR;</li> <li>■ Send check images to bank directly;</li> <li>■ Customer downloads AR file to update system</li> </ul> | <ul style="list-style-type: none"> <li>■ Store all data securely;</li> <li>■ Locally or remote access to data;</li> <li>■ Easy to search for information.</li> </ul> |
